MIS Solutions

Solutions by the people of Zimmer Spine.
zimmerspine.com

A complete MIS solution.

From the people of Zimmer Spine.

Minimally invasive surgery (MIS) continues to gain acceptance as surgeons and patients become more aware of its potential benefits. Patients are increasingly mobile and better informed, leading them to seek out surgeons with expertise in minimally invasive solutions. Today Zimmer Spine supports surgeons with a complete MIS solution, featuring best-in-class access instruments, interbody devices and pedicle screw fixation. With us you have one trusted source that can deliver the MIS solutions your practice demands.

It's all part of our commitment to bring you MIS solutions for your practice. From the people of Zimmer Spine.
