

Anatomical Shoulder™ System

The new removable head option

Anatomical Shoulder System by Zimmer

This unique system offers the advantages of a “custom-made” prosthesis. The modularity and design of the *Anatomical Shoulder System* allows accurate and reproducible reconstruction of the glenohumeral joint thus restoring normal kinematics of the limb.

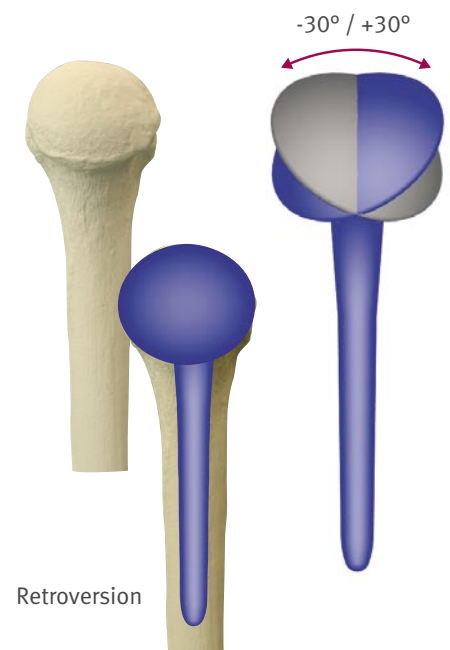

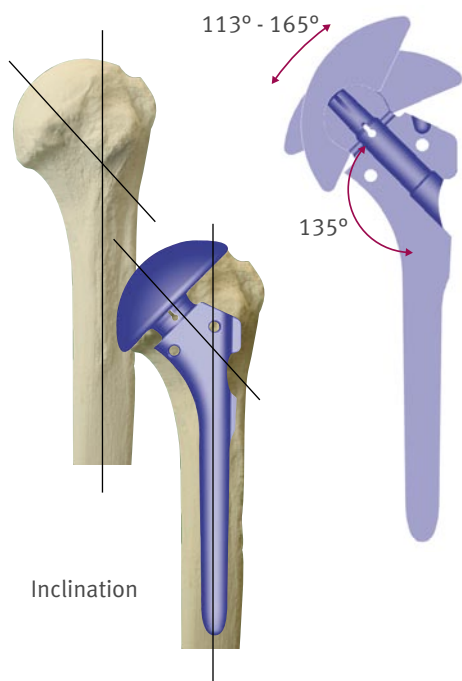

- In order to reconstruct the proximal humerus anatomically it is necessary to reproduce the size and orientation of the humeral head accurately.
- The humeral head prosthesis is adjusted to this anatomical position on the humeral stem prosthesis and then firmly locked.
- With the new removable head option, the stem is situated below the resection line for unobstructed glenoid access.

Infinitely variable setting of the humeral head

Inclination angle Cervicodiaphyseal angle

The anatomical inclination angle of the humerus varies between 120° and 140°.

With the *Anatomical Shoulder* prosthesis the angle can be infinitely adjusted between 113° and 165°.

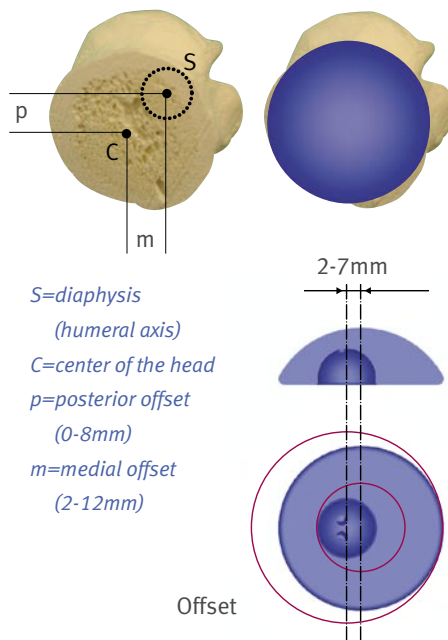

This unique system offers the advantages of a "custom-made" prosthesis.

Retroversion

The anatomical retroversion of the humeral head is between +60° and -20°.

With the *Anatomical Shoulder* prosthesis the retroversion can be infinitely adjusted between -30° to +30°.

Offset

The center of the head is normally posterior and medial from the center of the diaphysis (humeral axis).

The extent of the medial and posterior offset varies from individual to individual and as a function of the size of the humerus.

For the *Anatomical Shoulder* prosthesis, the infinitely variable eccentricity, which takes account of the offset, is from 2mm (∅ 40mm) to 7mm (∅ 52mm).

Anatomical Shoulder Humeral Implant Scope

Product Number Description

Cemented Stems

0104211072	Cemented Humeral Stem 7mm x 100mm w/Removable Head
0104211092	Cemented Humeral Stem 9mm x 110mm w/Removable Head
0104211122	Cemented Humeral Stem 12mm x 110mm w/Removable Head
0104211142	Cemented Humeral Stem 14mm x 110mm w/Removable Head

Revision Cemented Stems

0104215072	Cemented Humeral Stem 7mm x 200mm w/Removable Head
0104215092	Cemented Humeral Stem 9mm x 210mm w/Removable Head
0104215122	Cemented Humeral Stem 12mm x 210mm w/Removable Head
0104215142	Cemented Humeral Stem 14mm x 210mm w/Removable Head

Press-Fit Stems

0104201072	Press-Fit Humeral Stem 7mm x 100mm w/Removable Head
0104201092	Press-Fit Humeral Stem 9mm x 110mm w/Removable Head
0104201102	Press-Fit Humeral Stem 10.5mm x 110mm w/Removable Head
0104201122	Press-Fit Humeral Stem 12mm x 110mm w/Removable Head
0104201142	Press-Fit Humeral Stem 14mm x 110mm w/Removable Head
